A.M. BICKFORD
 SINCE 1974 • SAME NAME • SAME COMPANY inc.

BREATHING BAGS

For nearly 50 years, A.M. Bickford's veterinary anesthesia equipment & supplies have built a reputation of quality, safety, durability, and trust.

Veterinary anesthesia breathing bags are a critical component to your anesthesia machine, providing a visual monitor of the patient breathing, protecting patient from excessive pressure, and holding a collection of respiratory gases used during spontaneous breathing.

Anesthesia Induction Chamber #90200

Suitable for difficult or unruly animals, up to size of an average adult cat.

Made from semi transparent polyethylene impact resistant plastic with snap on top.

The chamber has 15mm standard taper connections (male and female) for connecting to anesthesia machine and overflow disposal.

Complete with rubber tubing and instructions. Chamber is used to induce the first signs of anesthesia, while observing the animal, prior to intubation for controlled anesthesia.

Latex Breathing Bags

A.M. Bickford's disposable black latex bags are available in 0.5 Liter - 5 Liter size and equipped with a standard 7/8" bushing neck.

- #18900 0.5 Liter
- #18701 1 Liter
